Guacamole

Ingredients

4 large avocados, chopped

¼ cup red onion, diced

¼ cup mild green chilies, diced

¼ cup tomato skins, diced

2 cloves garlic, minced

Lime juice to taste (start with half a lime)

Salt to taste (start with ¼ teaspoon)

Directions

Combine all the ingredients and stir until the flavors are mixed well. I like to leave it pretty chunky. Taste it and then add more of whatever ingredients you prefer, making it more garlicky or oniony or salty, etc.

Serve immediately. If serving later, put one or two of the avocado pits into the bowl and cover with plastic wrap, smoothing it onto the surface to prevent air from getting to the guacamole (air is what turns the avocado brown).
